Key achievements

1. Our head cook began participating in a 'farm to school' food program.
2. A handwashing sink was added to the cafeteria.
3. We maintained at least 20-minutes of recess daily for every grade level.

Next Steps

1. We are increasing our Physical Education program to include 3 30-minute classes of Physical Education for grades PK-5.
2. Research options for nutrition education training for teachers.
